

Ingress Version 2 Launch Meeting and Demo

September 9, 2009

Agenda

- ▶ Review of Ingress
 - ▶ Goals and objectives
 - ▶ General issues and opportunities
- ▶ Ingress Version 2 Introduction
 - ▶ Why
 - ▶ What
 - ▶ When
- ▶ v2 BETA demo
- ▶ Other Issues; Open Q&A

Ingress – A Brief History

- ▶ Original challenge – regional access to secure applications
 - ▶ County applications went “live” ~18 months ago
 - ▶ BARS
 - ▶ JILS
 - ▶ ANI
 - ▶ All required shared security model
- ▶ Ingress Version 1 “live” in October 2007
 - ▶ Agency Registrars created users, granted access
 - ▶ Single sign-on for county applications
- ▶ Result: Federated user administration model

Good/Bad Features of Ingress

▶ Good

- ▶ Single source for regional applications
- ▶ Single sign-on for applications
- ▶ Very strong security model
- ▶ Reasonable administration for >4,000 users from >45 agencies

▶ Not so good (a.k.a. Bad)

- ▶ Limited to three King County applications
- ▶ Some difficulties with user management

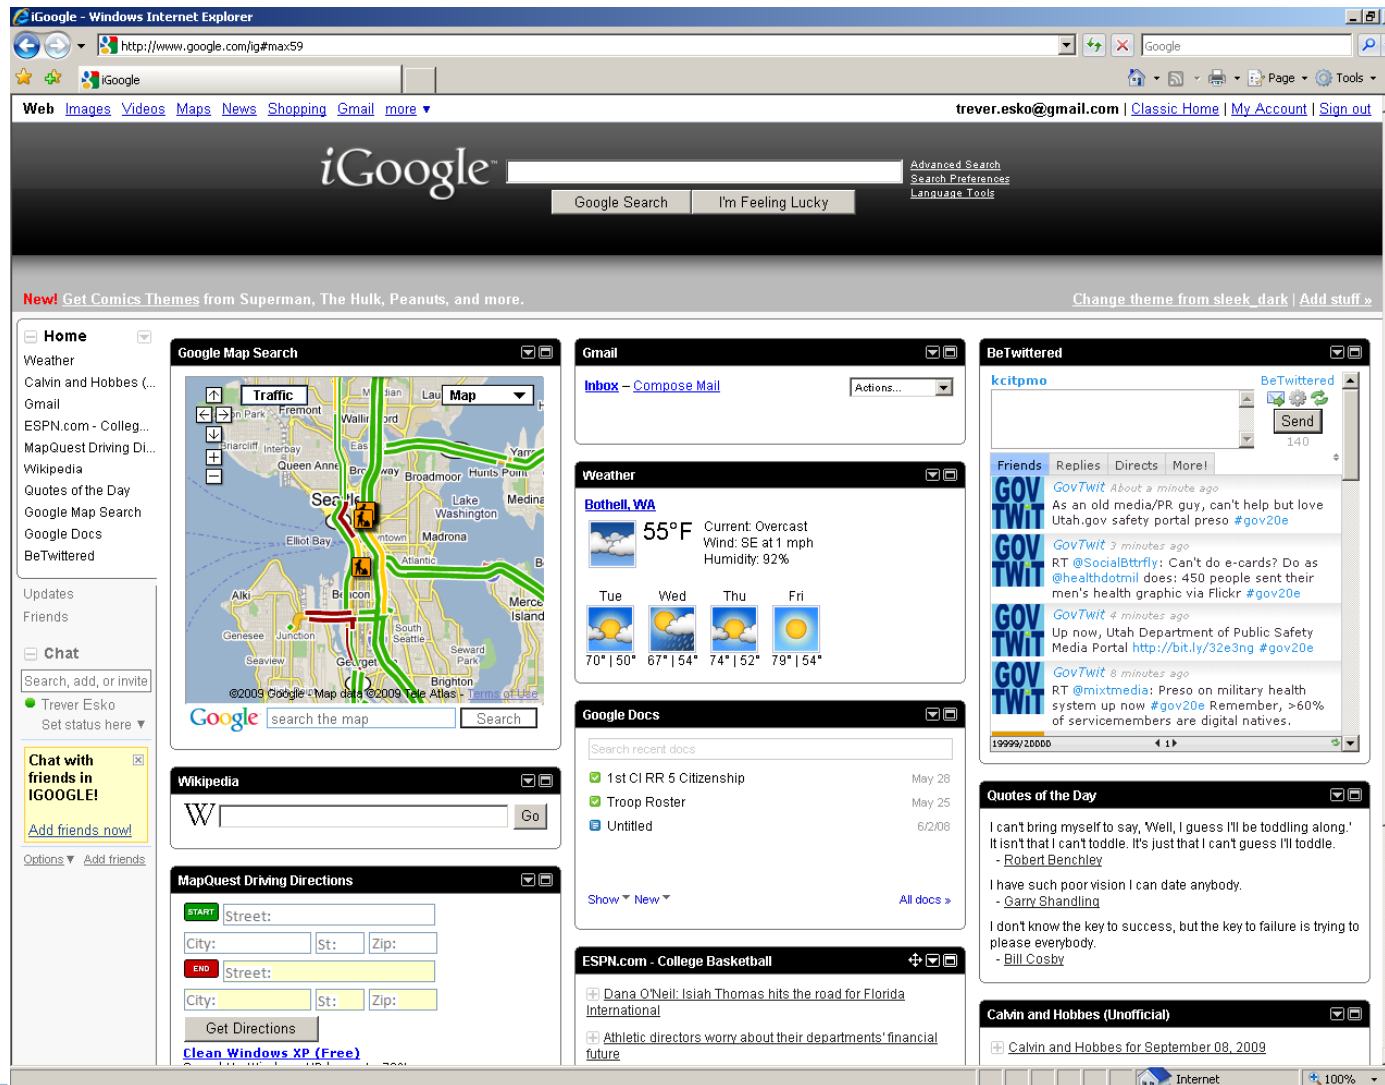

▶ “Opportunities”

- ▶ LSJ-I “portal” project
- ▶ Insufficient funding for KCPCA “DIGS” project

Ingress v2 Objectives

- ▶ **Expand on prior concepts**
 - ▶ Single consolidated point of access to information
 - ▶ Integrated search capability (expanding JILS)
- ▶ **Further incorporation of information sources**
 - ▶ Integrated and consolidated access to data across systems
 - ▶ Query tools to support searches across applications
 - ▶ Applicable inclusion of “public realm” information
- ▶ **Vision: A portal for criminal justice practitioners**

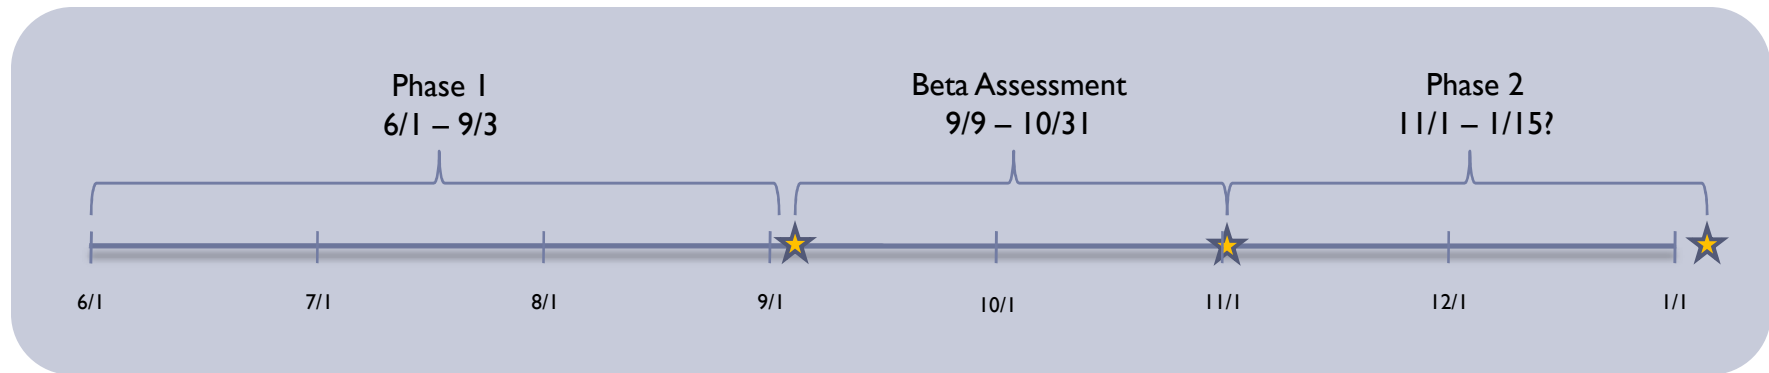

Ingress Portal Model (example: iGoogle)

Ingress Model Basic Concepts

- ▶ **Continue to provide access to regional systems**
 - ▶ Applications are primary source of data/information
 - ▶ Expand to support new systems (agency/ad hoc)
- ▶ **Provide information at user's request**
 - ▶ User adds and removes information
 - ▶ User decides where the information is on screen
- ▶ **Allow customization to fit individual needs**
 - ▶ Users can tailor to fit their operations
 - ▶ Users can tailor to fit their preferences

Timeline & Functionality Release

▶ Phase I – Framework and Beta

- ▶ Portal Framework
- ▶ Standard Widgets
 - ▶ Bookmarks Widget
 - ▶ Application Launch Widget
 - ▶ External Application Widget
 - ▶ RSS Feed Widgets
 - ▶ Twitter Widgets

Bookmarks Widget may include:

- ▶ PAO Online Victim Assistance and Abuse Information
- ▶ Public Defense Services

▶ Phase II – Full Version 2

- ▶ Advanced Widget Administration
- ▶ Agency Alerts and Notifications
- ▶ Unified Search
 - ▶ Sending Results
 - ▶ Saving Results

External Applications Widget may include:

- ▶ DJA ECR Online System
- ▶ King County Sex Offender Search
- ▶ RAIN
- ▶ LInX

v2 BETA Demo

What's Next

- ▶ **Agency use of “Beta”**
 - ▶ All agency users are “loaded” into Beta now
 - ▶ We are NOT reconciling logons between Ingress versions
- ▶ **Beta will improve over next two months**
 - ▶ Addition and improvement of how applications are presented in widgets
 - ▶ Addition of new “widgets”
 - ▶ Looking for user feedback!!!
- ▶ **Future transition to v2**
 - ▶ At this time, users may use EITHER v1 or v2 Beta
 - ▶ Recommend doing an agency training and conversion
 - ▶ When v2 goes “live” (dates TBD) we will work with agencies to reconcile user accounts
 - ▶ At that time, agencies will have 30 days to transition users

Q&A
